

PRACTICE BY THE SEA

1. WELCOME TO RÜGEN

Nora Kaminski used to be a doctor on a luxury cruise ship before her career turned belly-up. Now, she is practically left with nothing and depends on her old college buddy Dr. Richard Freese for help. He manages to secure a job for her in his local clinic on the island of Rügen. But things aren't so easy for the charming and cheerful soul from the Ruhr Valley in her new surroundings in the far north.

5. THE LONE SWIMMER

Without her best friend Richard by her side, Nora cannot see herself keeping the practice on Rügen going all alone, especially since she is missing the approbation from health services. In addition, Dr. Heckmann has surprisingly offered her a position in his clinic. But then there is Richard's uncle, the former owner of the practice, that keeps pushing for her to take it over fully.

2. BROTHERS AND SONS

Nora Kaminski, the quick-witted physician without a doctor's title, who shares an apartment on the island of Rügen with her surgery colleague and good friend Richard, receives an unexpected visit from her son Kai. Her acquaintance with the Butenschön brothers raises a bit of dust in her everyday dealings: she just happens to be over the moon about handsome fisherman Matthias.

6. ANOTHER SHORE

Usually Nora is pretty good at multi-tasking, but at the moment the stress-resistant physician is pushing beyond her limits. She needs to take care of patients, keep the books and raise the money to buy the practice on Rügen outright – all by herself. She keeps regretting to have fired nurse Mandy. And searching for a new partner in the practice is harder than she thought. It seems like a match made in heaven then that Dr. Stresow, a genius from Switzerland, sends her an application.

3. THE LAWSUIT

When physician Nora Kaminski began her new job on the island of Rügen, she hoped to be able to leave her time as a ship's physician behind her. But now she is obliged to go to court in order to justify the death of a patient on board of her boat. The false testimony of a witness could not only cost her a lot of money in compensation, she could also be charged with manslaughter.

7. OLD FRIENDS

One year after the death of her friend and colleague Richard Freese Nora Kaminski has her "Practice with a view" back on track. Even getting into a collegial flow with her new partner Dr. Hannes Stresow has been accomplished. In her private life, Nora has been caught up in an old love affair: Her ex Peer Kaminski has not been drawn to the island merely for his newly acquired boat. Nora and Peer's already strained relationship does not get less complicated by this.

4. AMONG CAMPERS

Nora Kaminski has finally settled into the practice on Rügen, when all of a sudden the doctor without a doctorate gets the offer to return to her chosen home Berlin. A head-hunter seeks someone for a position at a clinic: an attractive job, a high salary, a great team of physicians and urban life back in the center of things. How could she say no?

8. DESIRE

Work has been keeping the island practice of Nora Kaminski and Dr. Hannes Stresow quite busy. When her colleague falls ill, Nora has to table all private matters and take care of work. A new patient shows up with puzzling symptoms. When his condition worsens in spite of treatment Nora discovers a fraud scandal that has both the hospital and local pharmacy involved.
